**WATS Feature Release Note  
Wats Alvea Enhancements 25.1**

## Major Feature Areas

Wats Alvea.....	3
Key Updates:.....	4

# Wats Alvea

Now seamlessly integrated into the Dynamic Action Menu, alongside Test Step Analysis and Process Heatmap. With a modernized design and enhanced functionality, Wats Alvea offers an improved user experience and more actionable insights.

### Key Updates:

#### **Modernized Look and Feel**

- Both Wats Alvea and the heatmap cells have received a visual upgrade, making the interface cleaner and more intuitive.

#### **Enhanced Suggestion Tiles**

- Suggestions are now easier to read and more actionable, providing guidance for tasks such as:
  - Creating root cause tickets.
  - Inspecting ongoing tickets.
  - Navigating between grids and modules while carrying over carefully selected data.
  - Exploring opportunities for first pass yield improvements.
  - Inspecting the serial number history of proposed units.

#### **Expanded Accessibility**

- Engage with Wats Alvea directly through:
  - The Dynamic Action Menu.
  - Test Reports.
  - Dynamic Yield.
  - The Process Heatmap.

These updates make Wats Alvea a more powerful tool for identifying issues, driving improvements, and simplifying your workflow.
